# Presidents Report – March 2022

Welcome to our second meeting of the year and its great to see some new and returning faces.

We do have several vacant positions still to fill, a Vice Presidents Positions and an additional 6 executive roles. If you are interested in helping deliver great initiatives, outcomes and events for the students and our school community maybe consider one of these roles.

# **Class List and Class Parent reps**

Class parent lists have been successfully established using the electronic survey which worked so successfully last year. A big thank you to the wonderful parents that volunteered to be a class parent this year.

#### Communication

With some regular messaging and new families joining the school we have now grown to over 500 subscribers to the P&C website and blog. This allows us to engage and communicate to a large % of the school community directly via our blog or P&C newsletter, 2 of which have already gone out and received close to 1,000 views.

As I have mentioned previously the strongest theme of feedback from the large survey, we did back in 2019 was related to communication and engagement, of the whole school community not just members. This is just another way we are delivering more consistent communication, and engagement opportunities with the whole school community this year.

### **French Language Lessons**

French language lessons have now been running for a couple weeks with classes running Thursday and Friday after school. Feedback thus far has been great with 28 students across the 2 classes. For those that weren't here last year the establishment of these classes was a result of a languages survey the P&C ran and is a great example of the P&C delivering for our school community.

# **Fundraising, Events, and Initiatives**

Looking forward to us discussing tonight the opportunities before us as a P&C to help deliver things that have a positive impact on the student at this school. Because really, I would think that is largely what we are all here for.
